

Professional Hood Exhaust System Cleaning
Monthly, Quarterly, Semi-Annual Programs

www.HoodGuyz.com

FIRE PREVENTION

MAINTENANCE

▶ **HOOD EXHAUST SYSTEMS**

Having your exhaust system cleaned regularly is not only for the safety of your customers, employees and your building, it is also a compliance issue.

▶ **PIZZA CONVEYOR OVENS**

When conveyor ovens get dirty bad things happen. Cleaning Conveyors regularly helps to reduce or eliminate downtime. Our Certified Trained Technicians will clean your conveyors completely and professionally.

▶ **POLLUTION CONTROL UNITS**

Our trained technicians are certified and well trained in cleaning high tech PCUs. Many things can go wrong when you have someone who is not certified to clean one of these units.

Let's Talk...

Give us a call today, and we will provide you a FREE inspection of your entire system. We will give you a detailed report on your system's condition and how much our cleaning program will cost.

OUR SERVICES

When conveyor ovens get dirty bad things happen. Cleaning conveyors regularly helps to reduce or eliminate downtime. Our Certified Trained Technicians will clean your conveyors so that they can continue to produce product for you.

01

Breakdown (Disassemble)

We will disassemble your oven and remove the components (conveyor belts, metal fingers, panels, etc.)

02

Clean Unit

We clean by using wire brushes, vacuums, and non-toxic cleaning solutions to clean your unit thoroughly.

03

Reassemble and Test

We will put the oven back together carefully and turn back on to ensure it all works properly.

04

Polish and Finish

Once we finish wiping down your oven, then we will clean the outside with stainless steel polish

Protect your
investment
and reduce
oven
downtimes!
